Dear Mr. Driscoll:

The Department of Environmental Services, Air Resources Division (DES), has reviewed the actions taken by Tractebel Power-Bethlehem Power Station (Pinetree-Bethlehem) in response to Letter of Deficiency ARD No. 2000-014. DES has determined that the specific issues addressed in the Letter of Deficiency have been resolved in a manner consistent with DES rules relating to air pollution control. Therefore, DES hereby issues this Letter of Compliance.

Please be advised that DES will continue to monitor the compliance status of Pinetree-Bethlehem. This Letter of Compliance refers only to those items listed as deficient in the Letter of Deficiency and for which a response was received. It is important that Pinetree-Bethlehem be aware of all the requirements stipulated in their Title V Operating Permit TV-OP-019. Please feel free to contact DES should you have any questions regarding what is required to comply with the permit.
